

## BULLETIN # A-11-2009-S

**From: Parts and Service Departments**  
**To: All US Authorized Service Agencies**

**Date: January 26, 2009**

**Product: Garland / US Range**  
**Subject: Metric Thermocouple Adaptor**

On current production, a metric thread thermocouple is used on the Garland G Series, US Range U and X series ranges, and the Flame Failure Valve series ranges. It is also used on the Garland Heavy duty and US Range Cuisine Ranges.

When trouble shooting this component, a Metric Thermocouple Adapter is required to perform a closed circuit test.

Garland now has available a Metric M9 Thermocouple Adaptor. The part number, description, list price will be:

<u>Description</u>	<u>Part Number</u>	<u>US List Price</u>
Interrupted Connector	4526299	\$9.95 each
