**To: All Authorized Service Agencies**

**Date: April 8, 2005**

**PRODUCT: Garland MCO Full Size and Half Size Convection Ovens  
 Garland ECO/ICO Convection Ovens**

**SUBJECT: Controller Part Number 1517706.**

This part has become no longer available from the vendor. Garland has developed several kits to convert the control panel from electronic digital control to our current 200 Series Controller. Below is a list of kits that Garland has made available.

4518889 – Conversion to mechanical Control for MCO GS/D 115V Gas	→	For units manufactured Up to Feb 28/99
4518902 – Conversion to mechanical Control for MCO GS/D 208/240V Gas		
4518903 – Conversion to mechanical control for MCO ES/D 208/240V Electric	→	For units manufactured After Aug 12/94
4518959 – Conversion to mechanical control for ECO/ICO 208/240V Electric		
4518961 – Conversion to mechanical control for ECO/ICO 115V Gas		
4519017 – Conversion to mechanical control for MCO-E-5 Electric		
4519016 – Conversion to mechanical control for MCO-G-5 Gas		

Please note the above kits are for units built with the 1517706 and are specific to the models they are listed for. These kits will not work on equipment with a controller part number other than 1517706. The part number of the control can be found on the controller side located on a white sticker as pictured below.
